## **Menlo Micro Announces Sales Agreement with Advanced Technology Marketing**

**IRVINE, Calif. and BOSTON, Mass., EDI CON USA – September 11, 2017** – Menlo Micro, the company responsible for re-inventing one of the most fundamental building blocks of electronic systems – the electronic switch – today announced that Advanced Technology Marketing (ATM) is now representing Menlo Micro’s product line across the New England states. ATM will help drive sales for targeted customers in the Mobile Networking, Aerospace/Defense and Industrial IoT Sectors.

“We are pleased to have ATM represent our technology and products,” said Lew Boore, Senior Vice President, Worldwide Sales and Business Development of Menlo Micro. “ATM has a proven track record of reaching customers in our targeted industry sectors, and we look forward to a long, mutually successful relationship.”

“ATM has provided strategic sales representation to leading Digital, IF/RF, Microwave and Power Components companies for more than 25 years. We are honored to represent Menlo Micro and the world’s, smallest, fastest, most reliable mechanical switch to help drive sales and penetration for this disruptive technology,” said Angelo Sakelarios, President, ATM, Inc.

**About Menlo Micro**

Headquartered in Irvine, California, Menlo Micro is reimagining one of the most fundamental building blocks of electronic systems – the electronic switch. The company's Digital-Micro-Switch platform is a game changer for those who design electronic systems, serving multiple industries including next generation 5G mobile networks, industrial IoT markets, battery management, home-automation, electronic vehicles and medical instrumentation. Menlo Micro is backed by GE Ventures, with investments from Corning, Microsemi Corporation, and Paladin Capital Group.
